The day gets its name from a famous saint, but we don't actually know exactly who Valentine was. There are several stories about this, and they're all very different. A popular belief about St Valentine is that he was a priest from Rome in the third century AD. Emperor Claudius II and his army were involved in many battles, but he believed Roman men who were married didn't make very good soldiers as they weren't very keen on going to war and leaving their wives and families behind. The ruler decided to ban marriage, a move which Valentine thought was unfair, so he broke the rules and arranged a marriage in secret. When Claudius found out, Valentine was thrown in jail and sentenced to death. Legend has it that he fell in love with the jailer's daughter and when he was taken to be killed on 14 February, he sent her a love letter signed "from your Valentine".
